WELCOME

I-35 CAPITAL EXPRESS NORTH PROJECT

TEXAS DEPARTMENT OF TRANSPORTATION

About the Mobility35 Program

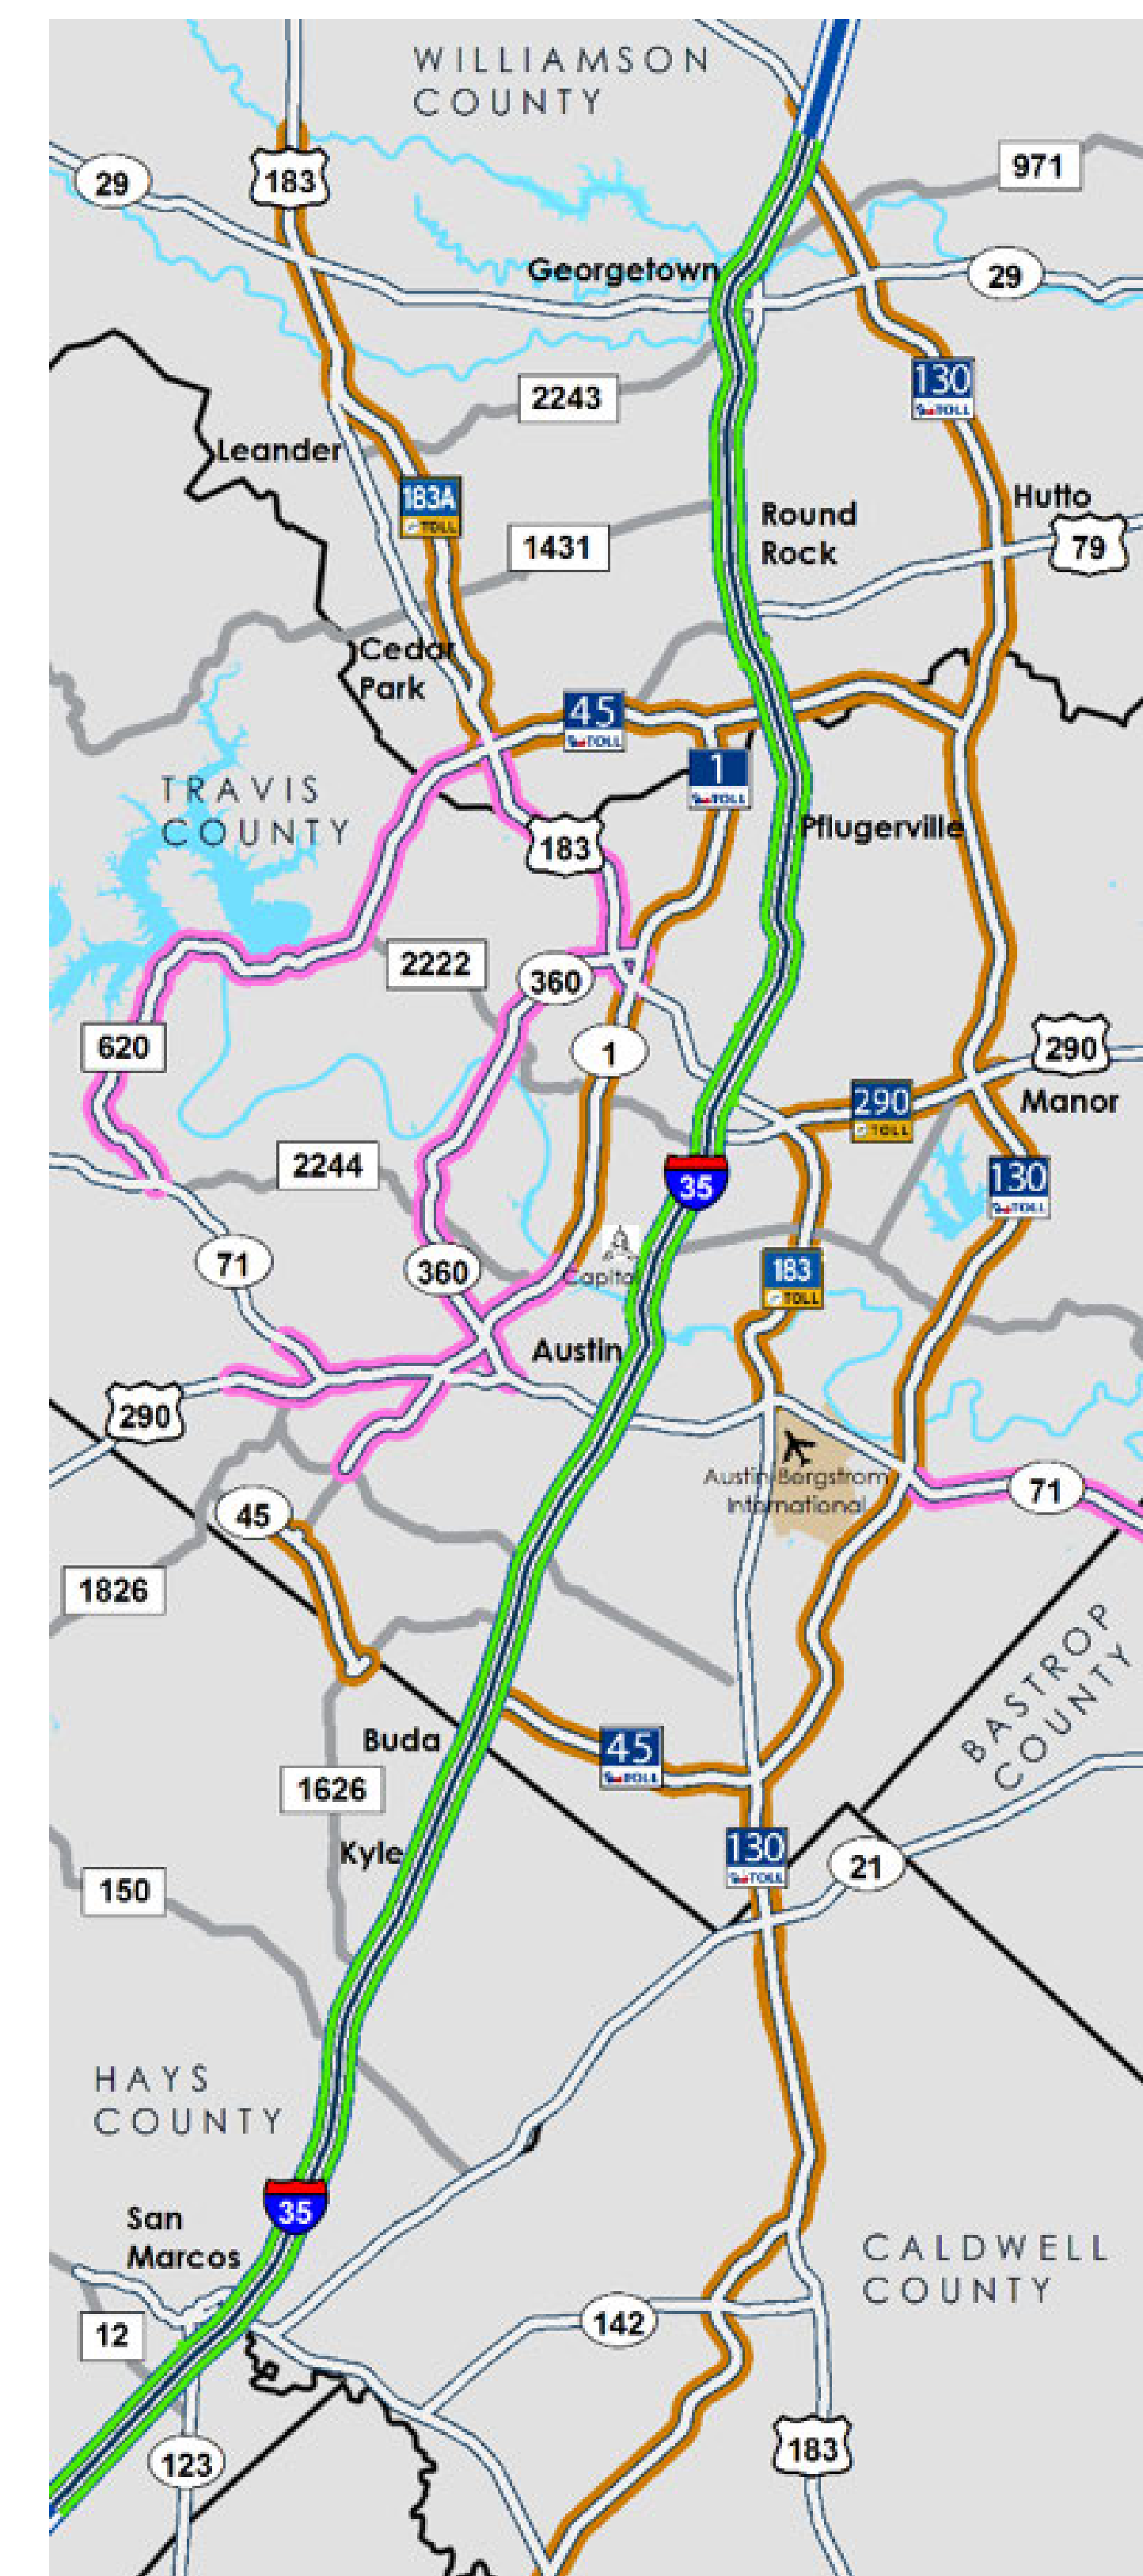

Region-wide effort to improve safety and mobility on 79 miles of I-35 through Williamson, Travis, and Hays counties including four segments on the 100 most congested roadways in Texas list:

- #3 – I-35 from US 290E to SH 71
- #19 – I-35 from SH 71 to Slaughter Lane
- #36 – I-35 from Parmer Lane to US 290E
- #78 – I-35 from Slaughter Lane to SH 45SE

Constraints to improving I-35 include:

- Highly constrained urban environment
- Need to maintain mobility during construction
- Need for east/west connectivity
- Diverse interests
- Funding

30+ projects in Mobility35 Program as part of the region's on-going transportation system upgrade

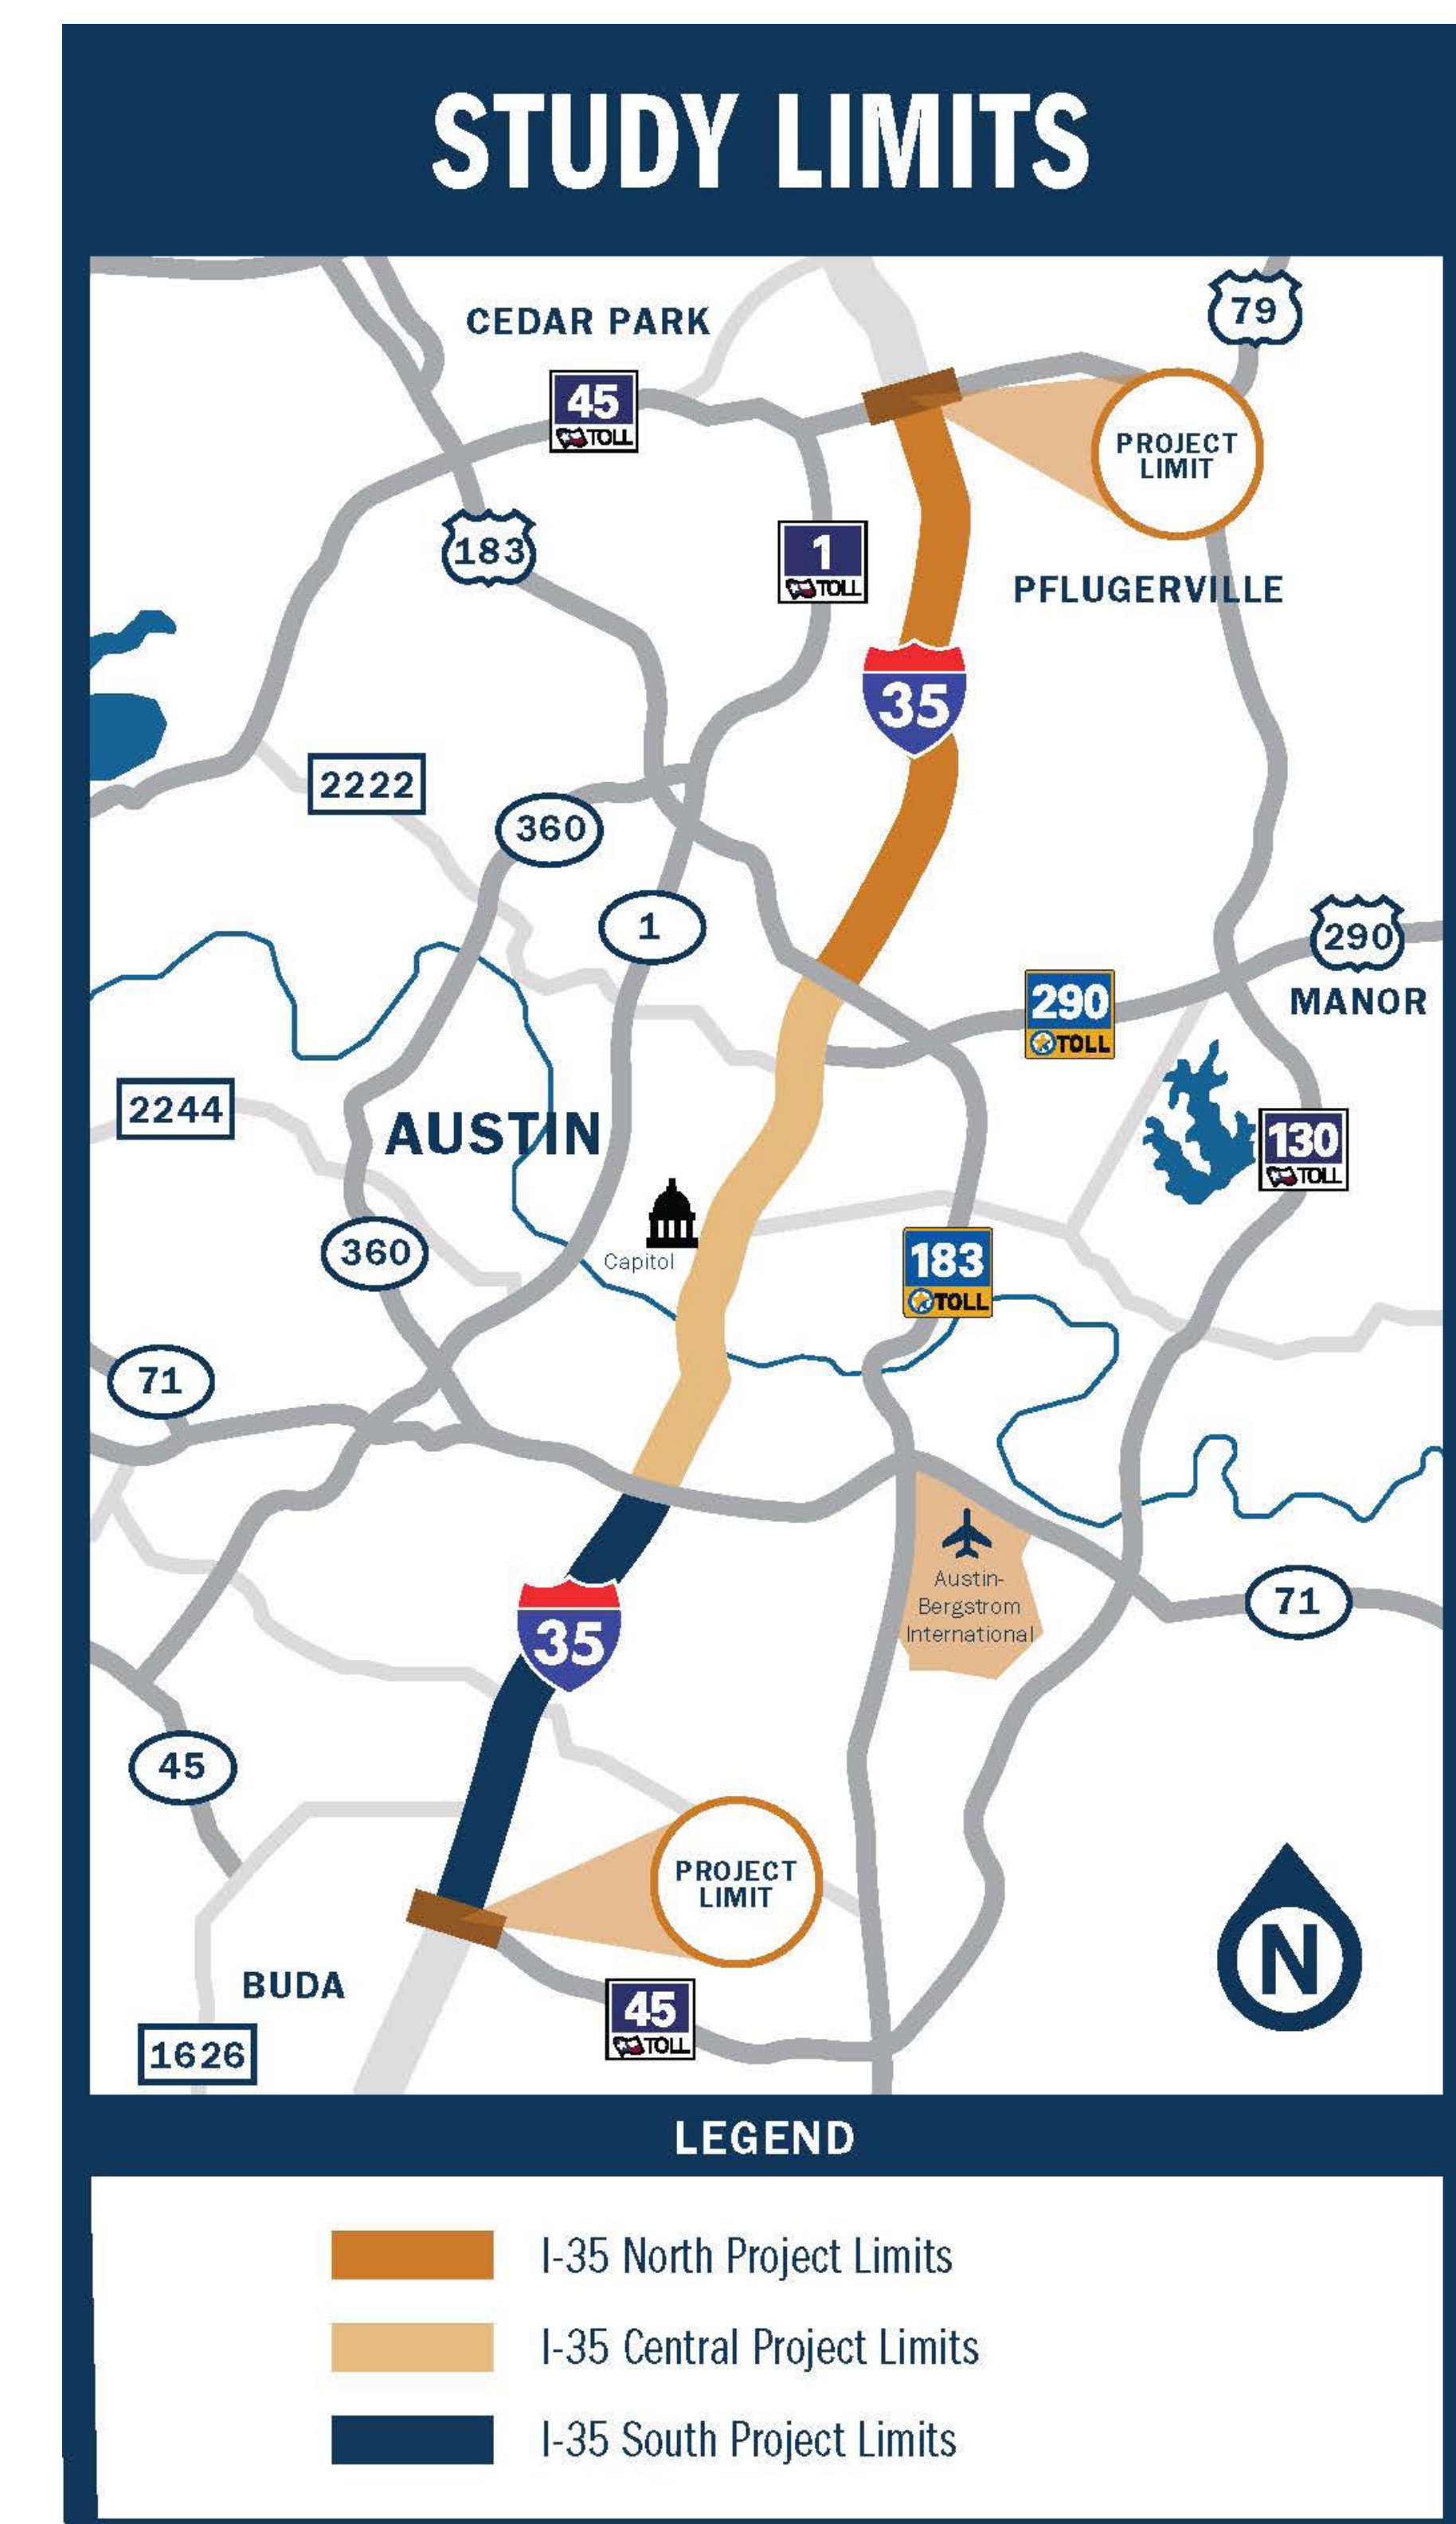

About the I-35 Capital Express Program

The I-35 Capital Express Program is made up of three, stand-alone projects - North, Central and South

- North project proposes to add one, non-tolled managed lane in each direction along I-35 from SH 45 North to US 290E
- Central project proposes to add two, non-tolled managed lanes in each direction along I-35 from US 290E to SH 71/Ben White Boulevard
- South project proposes to add two, non-tolled managed lanes in each direction along I-35 from SH 71/Ben White Boulevard to SH 45 Southeast

What We've Heard

COMMENT

Concerns about bridge height and speeds

Questions regarding how and where to enter and exit the managed lanes

Include bicycle and pedestrian amenities, such as sidewalks and shared-use paths

Make sure improvements benefit transit vehicles

Concerns about air quality

Concerns about noise

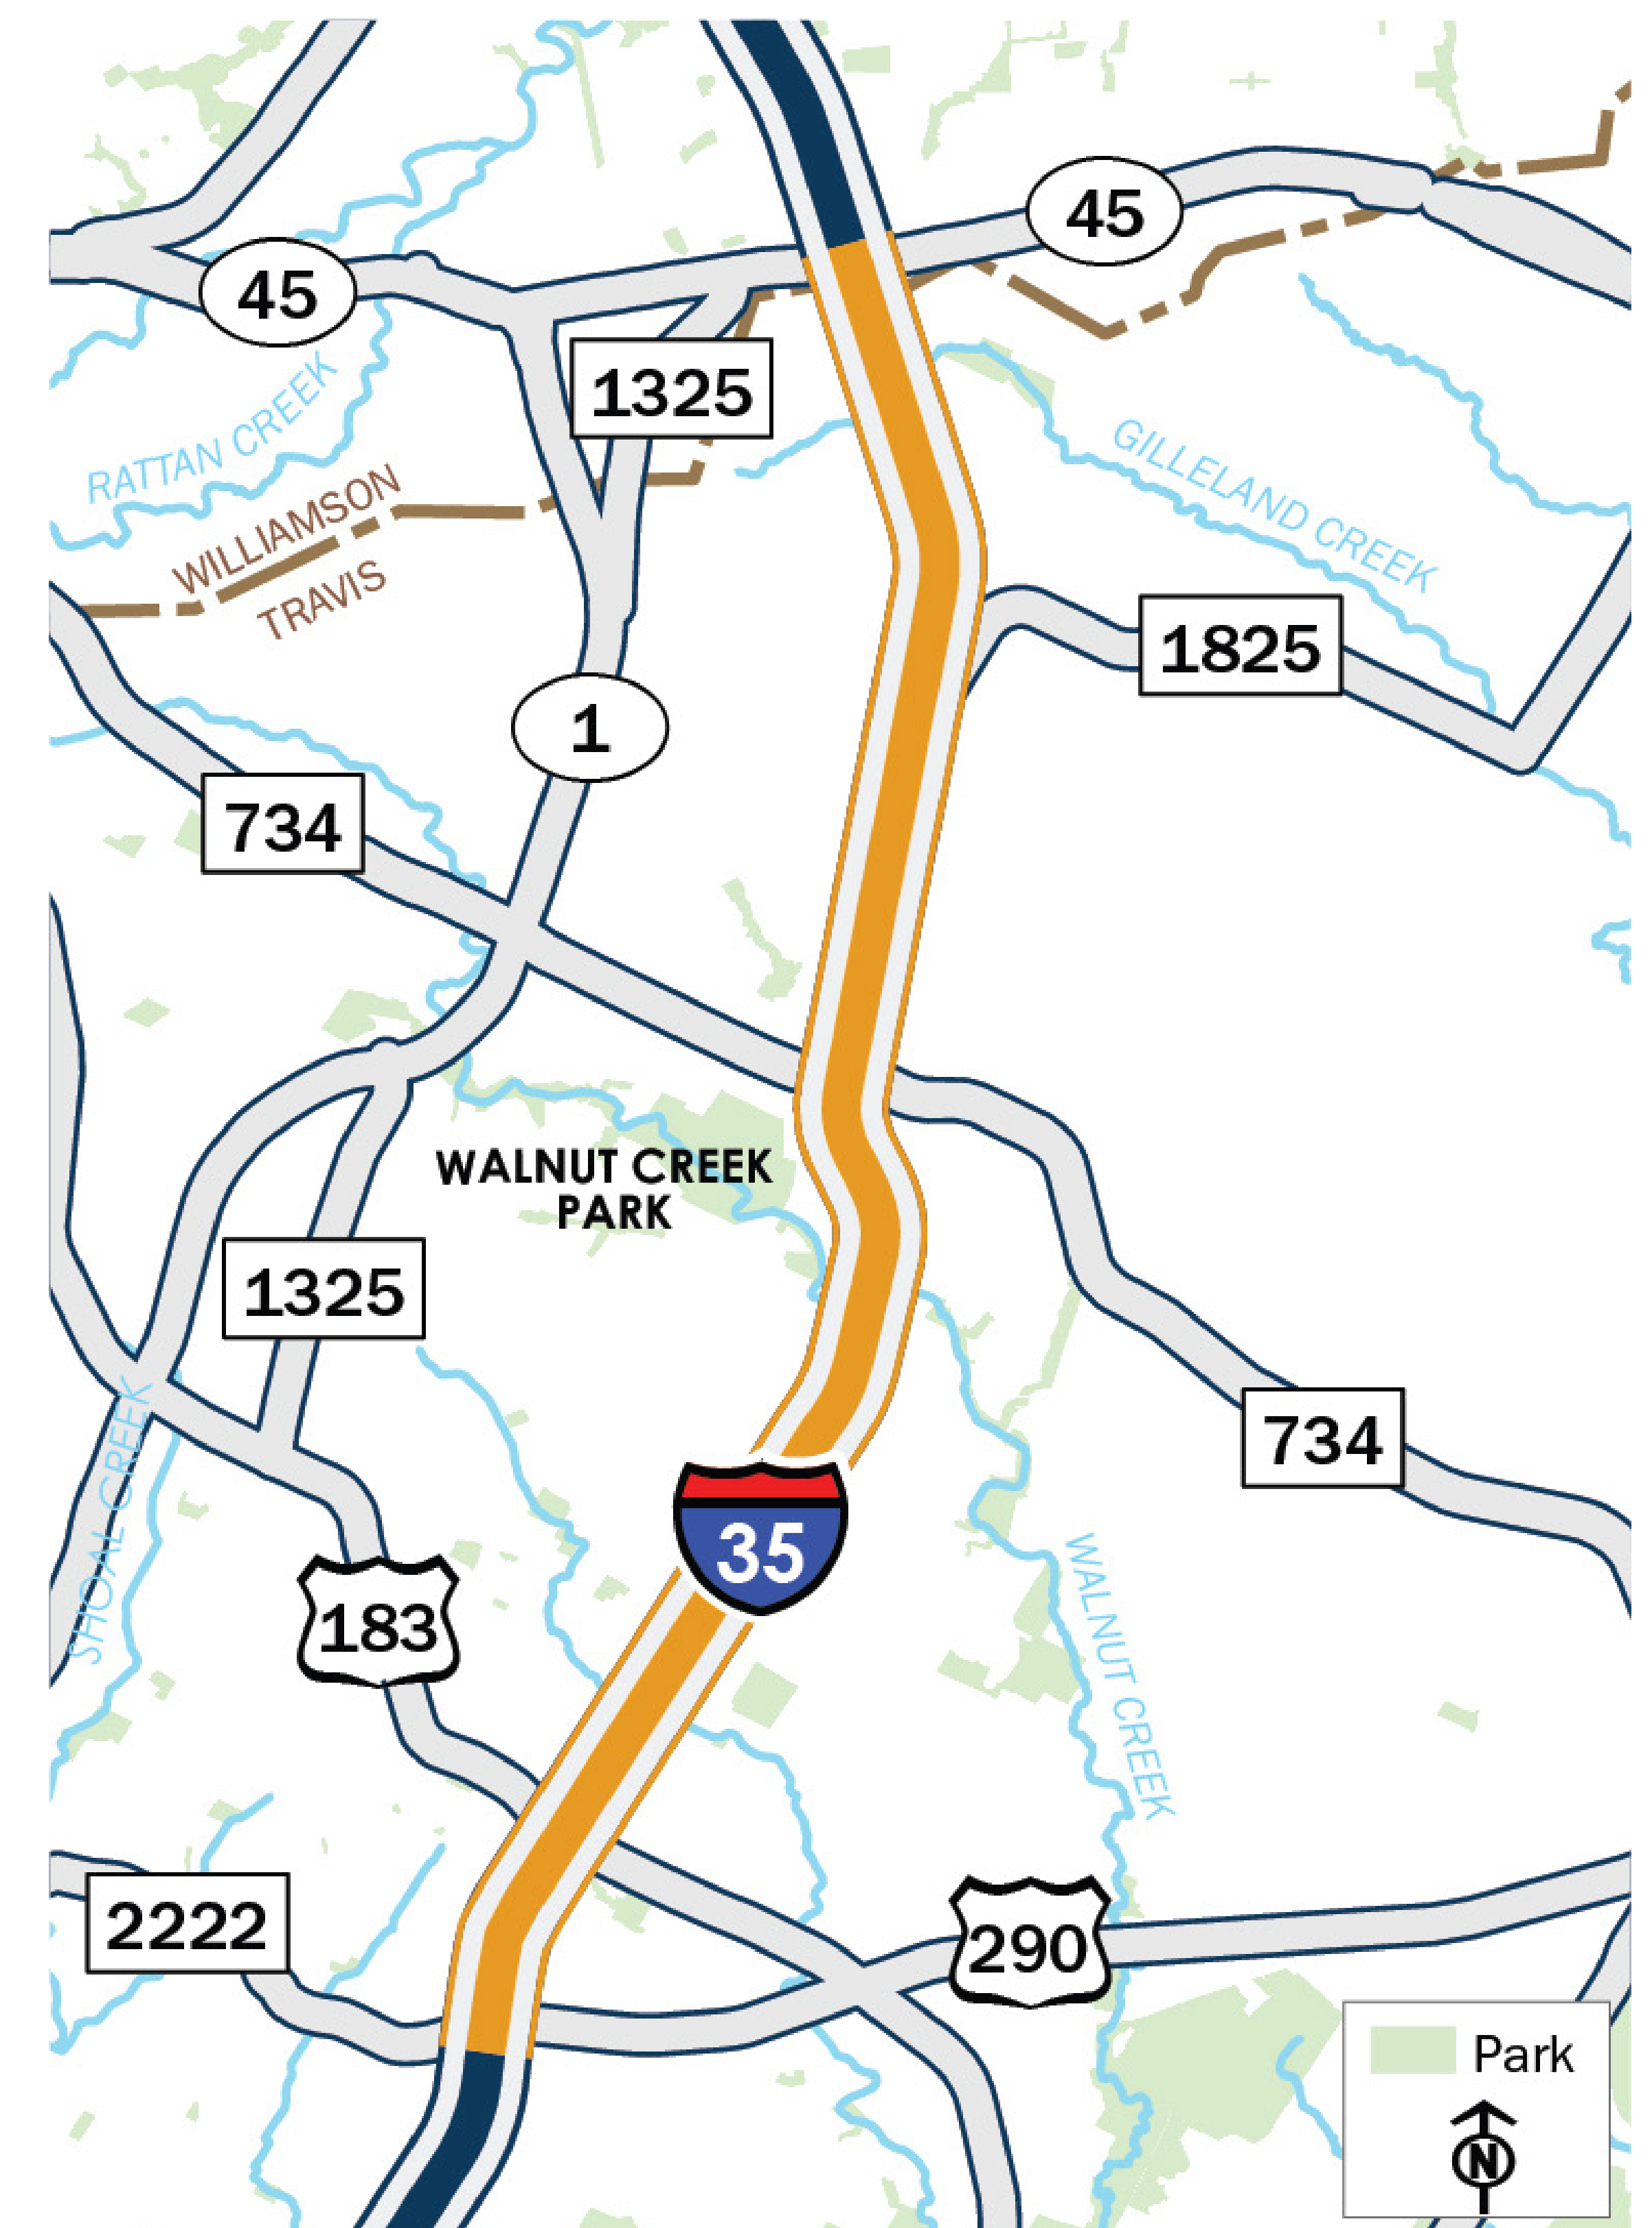

TEXAS DEPARTMENT OF TRANSPORTATION

Proposed Improvements and Project Location

- Adding one non-tolled managed lane in each direction, such as a high-occupancy vehicle lane (HOV)*
- Reconstructing six bridges within the project limits
- Adding a diverging diamond intersection at Wells Branch Parkway
- Improving bicycle and pedestrian accommodations along I-35 frontage roads and at east/west crossings

**See the HOV board for more information*

TEXAS DEPARTMENT OF TRANSPORTATION

High-Occupancy Vehicle Lane

What is a managed high-occupancy vehicle lane (HOV)?

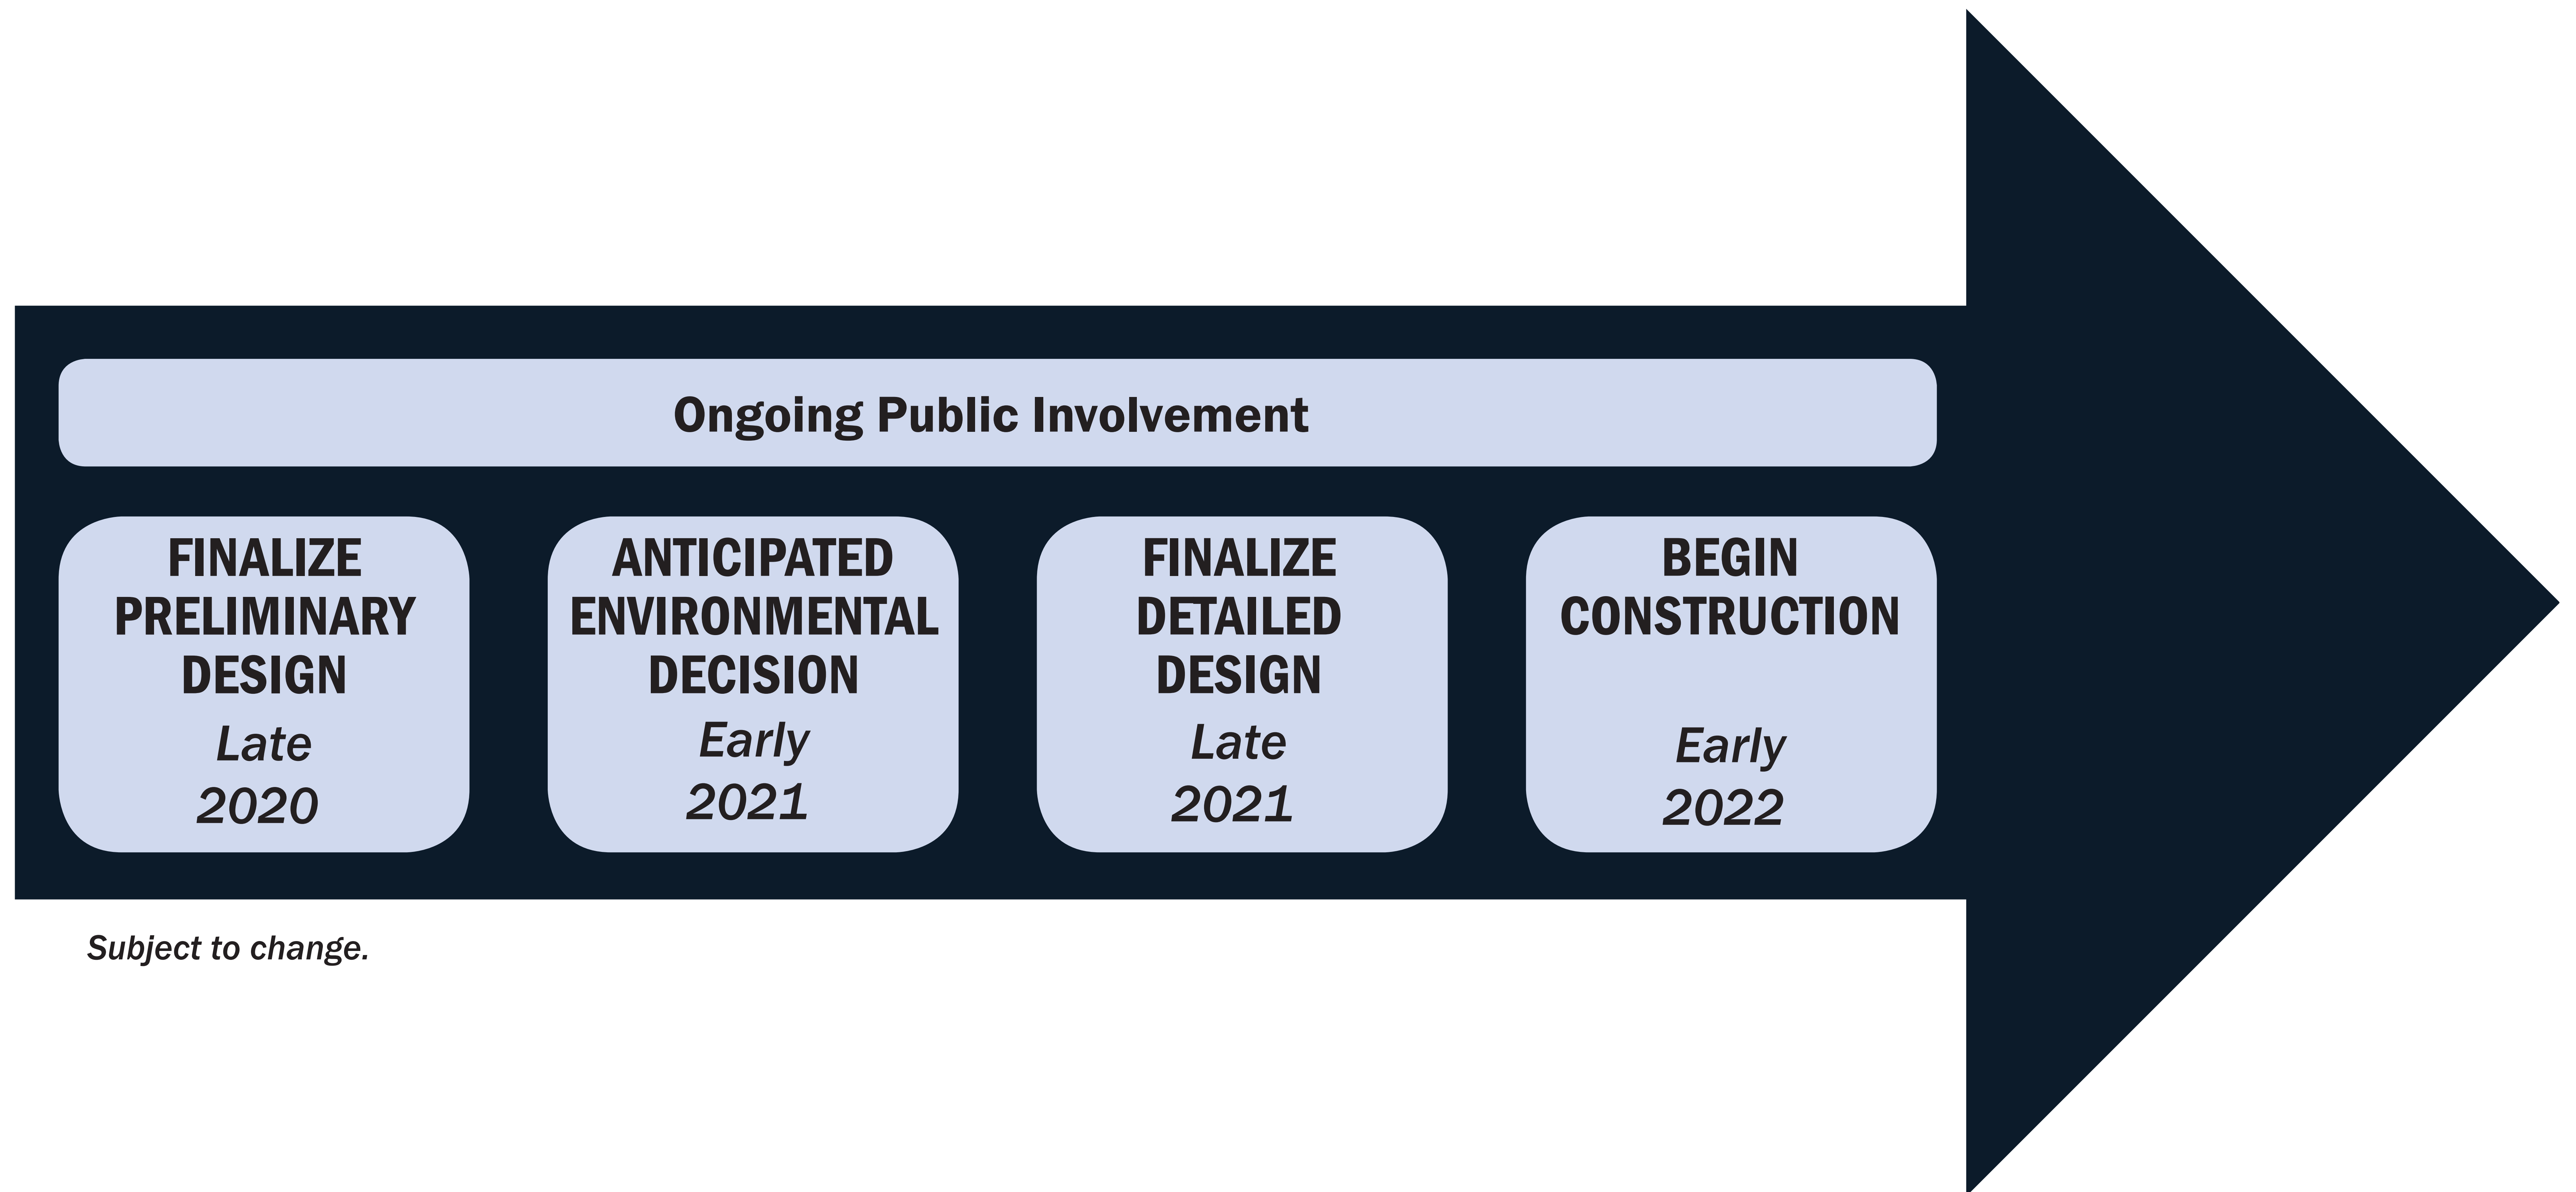

HOV is a lane reserved for vehicles with multiple occupants, including carpools, vanpools and transit vehicles.

TEXAS DEPARTMENT OF TRANSPORTATION

Project Schedule

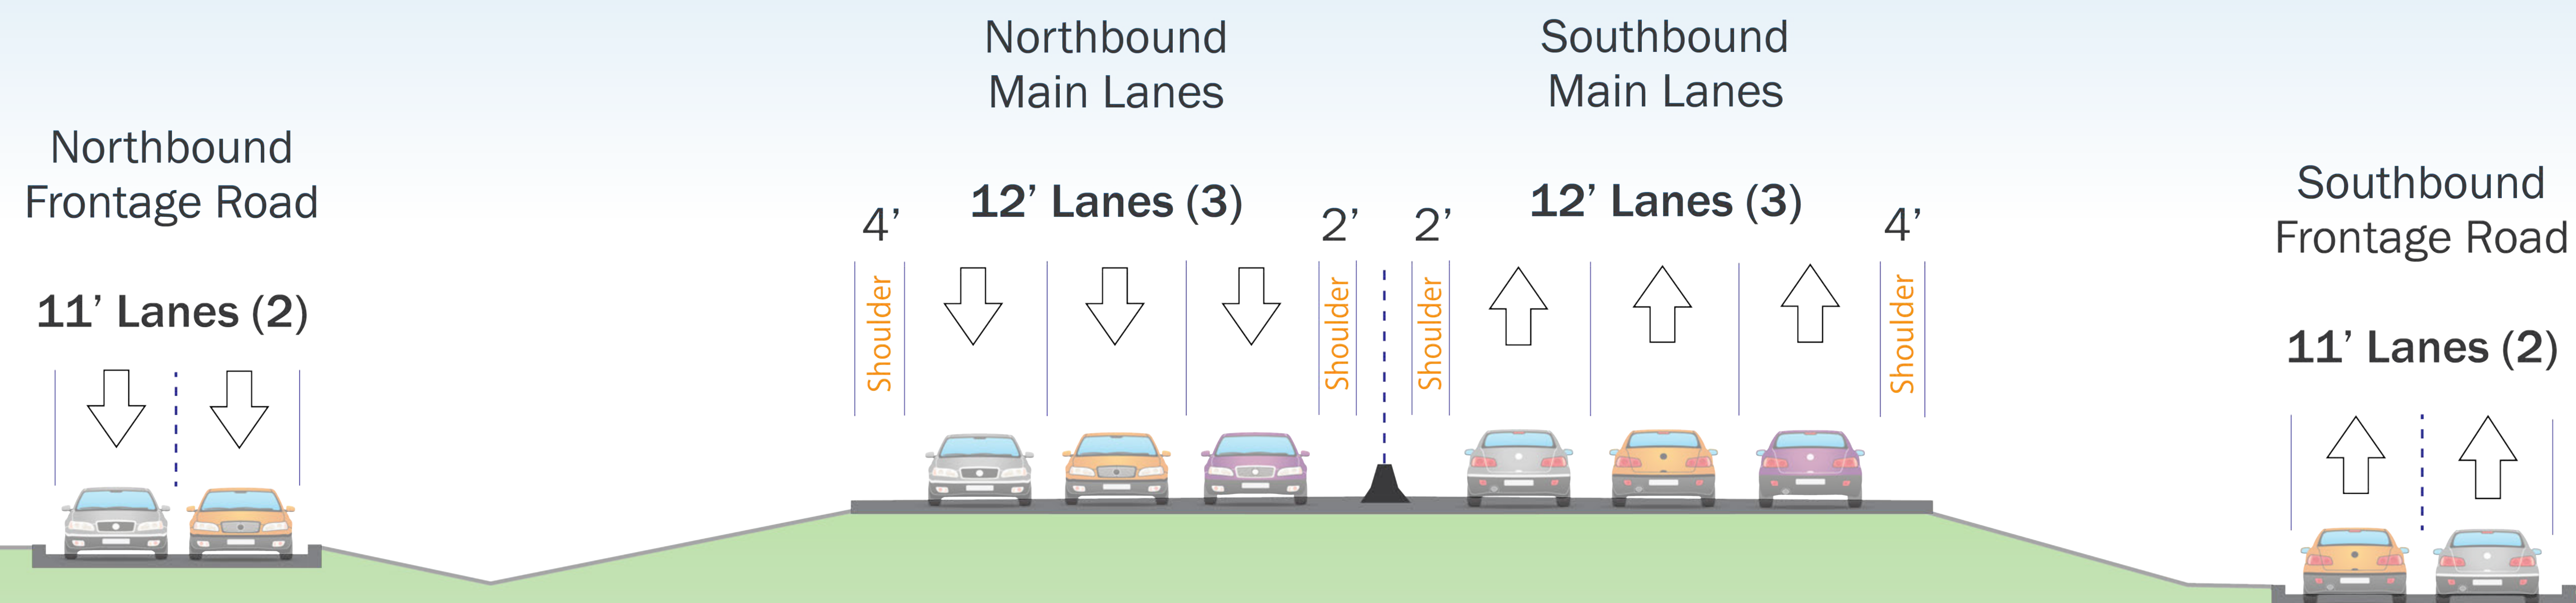

Subject to change.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.
