Description/Comments:	One-and-one-half-story, rectangular-plan, side-gable, bungalow duplex converted to apartments. Pier and beam foundation. Horizontal wood and asbestos siding. Metal roof. Large gabled dormers on front facade and rear elevation, full-width inset porch. Wood windows throughout, mostly 6/6 sashes, but 1/1 sash, casement, awning, and fixed windows also present. Building appears to have been constructed as a duplex but later subdivided into 7 or 8 apartments units. A historic-age, one-story, rear addition and exterior stairs were added for this purpose. Resource 1020 is contributing to the recommended NRHP-eligible East 1st Street Historic District. However, it does not possess historical or architectural significance within the historic contexts necessary for individual listing in the NRHP under Criteria A, B, or C.
Integrity Considerations:	Alterations include altered fenestration and replacement doors and windows. Due to alterations, Resource 1020 has lost integrity of design and feeling. Resource 1020 retains integrity of location, setting, materials, workmanship, and association.

Comment Number	Draft Page/ Section	New Page/ Section	Consulting Party	Comment	Response
1	Page 29/ Historic Context	Page 29/ Historic Context	City of Austin - Parks and Recreation Department	Would be nice to get more information on individual freedom colonies in East Austin rather than just saying they merged into one in the 1870s. How many were there? What were their names? Where were they located?	Included the names and locations of individual freedom colonies in East Austin based on review of the Texas Freedom Colonies Atlas.
2	Page 32/ Historic Context	Page 32/ Historic Context	City of Austin - Parks and Recreation Department	Also Republic Square was called "Mexico" or "Mexican Square" at the time because it was predominantly Mexican American.	Included information about the Mexican-American population surrounding Republic Square, known as "Mexico."
3	Page 33/ Historic Context	Pages 31-33/ Historic Context	City of Austin - Parks and Recreation Department	Why was East Austin so popular for African Americans and Mexican Americans before the 1928 plan? Our Lady of Guadalupe relocated to East Austin before the plan because the people were already moving there. Why?	Incorporated additional text from the City of Austin's East Austin Historic Resources Survey (HHM, 2016) that provides possible reasons for African American and Mexican American settlement in East Austin prior to 1928.
4	Page 34/ Historic Context	Page 35/ Historic Context	City of Austin - Parks and Recreation Department	It seems that it would be important to know why this occurred. [Referring to eastward development of East 1st Street (now East Cesar Chavez) at a more rapid rate than parallel streets]	Our research unfortunately did not indicate any specific reasoning for this. While speculation may provide a number of possible explanations, we do not feel that it is appropriate in this instance. For this reason, we have chosen to simply document the observable facts on this point.
5	Page 43/ Historic Context	Page 44/ Historic Context	City of Austin - Parks and Recreation Department	Information regarding schooling of Hispanic children would be pertinent to this context.	Added additional paragraph with information about the education of Mexican American and Hispanic students of Austin during this period.
6	Page 54/ Historic Context	Page 56/ Historic Context	City of Austin - Parks and Recreation Department	This was not the heart of East Austin for the African Americans of Austin, so this needs to be clarified.	Clarified that East 1st Street was often considered a commercial and center for the Hispanic community of East Austin.
7	Page 55/ Historic Context	Page 57/ Historic Context	City of Austin - Parks and Recreation Department	GI Bill was for whites only.	Included additional text to further emphasize that access to the benefits of the GI bill were extremely limited for people of color due to racist private and institutional lending practices and racially restrictive covenants.

8	Page 16/ Project Setting/Study Area	Page 16/ Project Setting/Study Area	City of Austin - Historic Preservation Office	Table on page 16: all Moonlight Towers are also City of Austin landmarks. As they are generally located in the ROW, all care should be taken to protect these delicate and iconic structures from indirect effects—including vibration—as well as direct impact.	There are no Moonlight Towers in the I-35 CapEx Central APE. However, the closest Moonlight Tower, located at the NE corner of Lynn and Canterbury Streets has been included in our list of properties for consideration in the project's vibratory impact studies.
9	Page 80/ National Register Eligibility	Page 82/ National Register Eligibility	City of Austin - Historic Preservation Office	For Resource 1037, 1403 East Cesar Chavez Street: A demolition permit has been filed for this property and historic zoning initiated; however, it is expected that City Council will vote against historic zoning on 9-1-22, and the property will be demolished.	Thank you for this information. Updated the evaluation to note that historic zoning was denied and demolition is anticipated.
